hushfree.S.Hybrid

HushFree.S.Hybrid is a class A acoustic pod according to the ISO 23351-1:2020 standard, with lighting intensity of 500 lux illumination at desktop level and adjustable light colour (2200 – 6500 K) with the hushAssistant option. This pod lighting system allows users to work longer and more efficiently.

The pod is designed for prolonged individual work, videoconferencing, meetings and online presentations. The pod is equipped with a comfortable sofa and an ergonomically designed desk for productive online meetings. Aesthetically pleasing LED side lighting of the user's face makes them even more visible during video calls. The hushFree.S.Hybrid pod can be equipped with a bracket to mount an all-in-one computer or monitor. Such a pod allows you to work more efficiently and increases the user's comfort. It also allows you to connect with people online, wherever they are.

FEEL THE FREEDOM OF CHOOSING HOW AND WHERE YOU WORK!

ONLINE MEETINGS AND PRESENTATIONS AS WELL AS LONGER VIDEO CONFERENCES JUST GOT BETTER!

EXCEPTIONAL ACOUSTIC COMFORT

High Class A acoustic comfort according to the ISO 23351-1:2020 standard for office acoustic booths.

BREATH EASIER – STAY LONGER

The new in-pod ventilation system circulates the air in the pod even faster for optimal working conditions.

EVEN BETTER LIGHTING FOR AN EFFICIENT WORKPLACE

The new LED lighting system in the pod provides a light temperature of 4000 K and 500 lux at table level for more effective working.

FIXED DESK AND SOFA

The booth is equipped with an ergonomically designed desk and a comfortable sofa for even more comfort when working online for long periods of time.

MOBILITY – FEEL THE FREEDOM OF CHOOSING A LOCATION

The pod has built-in wheels so it can be moved around the office without disassembly.

NEURODIVERSITY – WE SUPPORT INTEGRATED TEAMS

The pod is CAR-certified (Certified Autism Resource) certified – it helps create a work environment that meets the needs of neurodivergent people in terms of work organisation, space, communication and perception.

DIMENSIONS AND TECHNICAL DATA

1

External dimensions of the pod (WxDxH):
1244 x 900 x 2300 mm

- **acoustics A** – speech level reduction measured in accordance with the ISO 23351:2020 standard
- **total air flow**: 2 fans with a capacity of 160 m³/h
- **LED lighting** with a colour temperature of 4000 K and an intensity of 500 lux at tabletop level
- structure prepared for anti-seismic ground fixing

EQUIPMENT

FIXED DESK

Tabletop dimensions: 772 x 405 x 735 mm, in 18 mm thick plywood. Maximum load: 25 kg. Available in two finishes: HPL laminate white and non-slip velvet black.

SOFA

The sofa is available in the same colours as the acoustic panels and is made from the same materials. Available in a single colour or a combination of any seat colour with a light or dark grey back. Maximum load: 150 kg.

OCCUPANCY SIGNAL (OPTIONAL)

Activated by a motion sensor to signal the pod occupancy when in use.

VESA BRACKET AND EXTRA POWER SOCKET (OPTIONAL)

VESA 100 x 100 mm bracket for mounting a 27" monitor and an additional 230 V socket.

DOOR OPENING LIMITER

Door opening limiter that can be fitted to the top and bottom hinges (2 pcs). Once fitted, the acoustic pod door opens to a maximum angle of 130 degrees.

HUSHASSISTANT (OPTIONAL)

HushAssistant is a 4" round high resolution touch screen lighting and ventilation controller. Part of the hushAssistant's functionality is to manage and display the availability of meeting rooms.

HUSHBOOKING (OPTIONAL)

It allows to book a cabin using the e-mail calendar or directly via touch screen.

The manufacturer reserves the right to make structural changes and changes in parameters that do not impair the usability of the products. The colours presented in the catalogue may differ from the actual colours of the products. The above offer is informative and does not constitute a commercial offer.
